

Fresno based rock band "Blaze" was formed in Jan 2010 by teen guitarist Blaze. Every member of the band has been influenced by the music of the 70's and 80's, so it was a natural fit for 5 veteran rockers to join forces with the kid in his quest to dawn a new era of the Rock God.

One fan put it like this:

"These guys are the real deal! They don't copy the thousands of styrofoam, clone bands out there right now. They are different and they relish it. Blaze is straight up Rock and Roll and it's about time for a band like this. The music is fresh, the band is excellent, and once you watch this kid play the guitar, you'll know for sure that you have seen something special."
