

Through The Ashes Bio

Through the Ashes is a metal band comprised of five musicians with different musical backgrounds. All coming from the Central Valley these guys have equal drive and passion for their music. The musical talent running through the veins of Through the Ashes is something fierce. Influences stem from early bands like Alice Cooper, Ozzy Osbourne, and Metallica to newer influences like Soulfly, 36 Crazy Fists, and Machine Head. Every show they play is electric whether it's a hole in the wall or a big event. The future of this band is an unsure path of chaos, sometimes leaving a person mentally and physically exhausted, but the music always finds a way. Check us out at www.sonicbids.com/throughtheashes
